

THE SURVIVAL GAME

How to play:

- Make a group of 4, 5 or 6 players (if possible, 6 players in the group is best).
- Cut out the cards WITHOUT LOOKING!
- Put the cards face down on the table.
- On each card is a situation and a list of items or things needed to survive in this situation.
- One player takes a card (DON'T show it to the other members) and reads the situation (DON'T read the list of items).
- The other players have to guess the items needed to survive which are written on the card.
- If somebody guesses an item correctly, the other players can't say that item. They must think of a different item.
- If a player guesses an item correctly they are a survivor. WELL DONE!
- The last person to guess an item (or any members who couldn't guess an item) didn't survive. TOO BAD!
- The person reading the card can give hints if it is difficult. Also, if someone thinks of an item that is not on the list but everyone thinks is a good item, the person reading the card can choose to accept that item.
- If you want to, you can make a points system. Decide that yourselves.

Situation:

You are lost in the Sahara Desert.

Items:

Water.
Hat.
Sunblock cream.
Camel.
Mirror.

Situation:

Your plane crashed in the Amazon jungle.

Items:

Knife.
