

Class survey: Who is the most ..? Who is the ... est ?

* You are going to write questions for a class survey.

* Your aim is to find the student in the class.
 (Your teacher will tell you what to write here!)

Write short memo notes

<i>Please write interesting questions</i>	Name	Name	Name	Name	Name

Class survey: Who is the most ..? Who is the ... est ?

Teacher's Notes

The student worksheet has been kept as clean and simple as possible, to leave more space for writing ~ & to reduce confusion!

Suggested lesson plan

1 Ask three students these questions (*Also ask follow-up questions to get a little more information.*):

- How often do you laugh?
- Do you like to watch comedy shows on TV?
- Are you worried about anything?
- Do you have a boyfriend/girlfriend?
- How many friends do you have?

Write short, memo notes summarising their answers on a grid on the board.

2 Look at the answers for a short time, and decide who is the 'happiest' of the three students. On the board, write '**(name)..... is the ____est student.**' Elicit 'happiest'.

3 Tell the students that they are going to write questions to find the 'most', or '... est' student in the class. Put students into pairs, then go round to each pair and tell them the theme of their survey (*Make sure other students can't hear!*).

Suggested themes (*Obviously substitute with your own ideas, if you like.*): laziest most serious craziest fittest
coolest most healthy most unhealthy cleanest etc etc ...

4 Pair works together to write 5 questions. Explain that the theme of the survey shouldn't be 100% obvious from the questions.

5 Divide the class in half ~ one student from the pair in each half. Students then talk to 5 students, writing short memo notes on the worksheet. Encourage follow-up questions. *Explain that the theme of their survey is secret, so they shouldn't tell anyone!*

6 Students get back into original pairs, and compare the results of their surveys. They then talk together to decide who is the winner. (*Each pair chooses one winner.*)

7 Awards ceremony. Organise the announcing of winners in any way you consider appropriate.
